1. Introduction

1.1 Name of the NGO

Swa Manjulabai Shankarrao Mane Samajik Shaikshanik Sanstha

- **Established:** 2012
- **Legal Status:** Registered NGO
- **Address:** Office NO. 06 Plot No. C-2A Shree Ganesh Mini Market sector 12 kharghar
- **Registration Details:** Trust
- **PAN, 12A, 80G, FCRA Status:** Available

1.2 Project Title

"Aasra – Where Every Heart Finds a Safe Home"

- **Project Focus:** Establishing safe, sustainable shelter homes for vulnerable populations
- **Target Location:** Mumbai, Maharashtra & Surrounding Areas
- **Grant Amount Requested:** ₹350 Crores
- **Project Duration:** 5 Years

1.3 Key Project Statistics

Parameter	Details
Total Budget Required	₹350 Crores
Target Beneficiaries	5,000+ Vulnerable Individuals (including abandoned children, elderly citizens, and homeless individuals)
No. of Facilities to be Established	**3** (1 Shelter Home, 1 Old Age Home, 1 Orphanage)
Geographical Reach	Mumbai & Surrounding Regions
Project Duration	5 Years
Expected Impact	- Rehabilitation & Safe Housing - Skill Development & Employment Support - Improved Mental & Physical Well-being - Social Reintegration of Marginalized Groups
Sustainability Model	- Self-sustaining revenue generation through vocational training programs - Corporate partnerships & DONATION funding - Government support & policy integration

2. Executive Summary

2.1 Brief Overview of the Project

Project Component	Details
Project Title	Aasra – Where Every Heart Finds a Safe Home
Name of the Implementing Organization	Swa Manjulabai Shankarrao Mane Samajik Shaikshanik Sanstha
Established	2012
Registered Address	B/84, Balajinagar, Near Ganesh Vidya Mandir, Dharavi, Mumbai, Maharashtra
Key Person Responsible for the Project	Surekha Trimukhe
Grant Amount Requested	INR 350 Crores
Location of Implementation	Mumbai, Maharashtra
Project Duration	5 Years

Background and Need for the Project:

Mumbai has a **high population of homeless individuals, abandoned children, and elderly citizens** without financial or familial support. The absence of **structured care facilities** has resulted in **increased vulnerability, malnutrition, and social exclusion** among these communities.

The *Aasra* project proposes the **construction and operation of three dedicated facilities**:

1. **A Shelter Home** – Providing temporary and long-term accommodation for homeless individuals.
2. **An Old Age Home** – Offering a safe, dignified, and comfortable environment for senior citizens.
3. **An Orphanage (Anath Ashram)** – Providing care, education, and rehabilitation for orphaned and abandoned children.

These facilities will not only provide **shelter and safety** but also **healthcare, food, education, skill development, and rehabilitation programs** to ensure **long-term self-sufficiency** for the beneficiaries.

This initiative aligns with **Sustainable Development Goals (SDGs)**, particularly:

- **SDG 1:** No Poverty
- **SDG 3:** Good Health and Well-being
- **SDG 4:** Quality Education
- **SDG 8:** Decent Work and Economic Growth
- **SDG 10:** Reduced Inequalities

The project aims to **create a holistic support system**, helping **abandoned children find a future, homeless individuals regain stability, and elderly citizens live with dignity**.

2.2 Objectives and Expected Outcomes

Primary Objectives of the Project:

1. **Construction of Three Dedicated Facilities:** Establishing **one Shelter Home, one Old Age Home, and one Orphanage** in Mumbai.
2. **Providing Safe Shelter:** Ensuring secure, hygienic, and well-equipped accommodation for all beneficiaries.
3. **Food and Nutrition Support:** Offering three nutritious meals a day along with health supplements for children and elderly residents.
4. **Healthcare Services:** Regular medical check-ups, emergency care, and psychological counseling.
5. **Education for Orphaned Children:** Ensuring formal education, skill development, and career opportunities.
6. **Rehabilitation and Livelihood Support:** Vocational training programs for adult beneficiaries and employment assistance.
7. **Social Reintegration:** Facilitating family reunification and community engagement for sustainable rehabilitation.

Expected Outcomes

Key Indicators	Expected Impact
Shelter Home Capacity	500 homeless individuals accommodated
Old Age Home Capacity	300 senior citizens provided residence and care
Orphanage Capacity	500 orphaned/abandoned children provided shelter
Total Direct Beneficiaries	1,300 individuals per year
Total Meals Provided Annually	1.5 million meals
Medical and Psychological Support	100% beneficiaries receiving regular healthcare
Educational Support	500 children enrolled in schools and vocational training
Employment Generation	250 adults trained and placed in jobs annually

Through *Aasra*, the NGO will **rescue, rehabilitate, and empower** individuals, ensuring **dignified living and self-reliance** for vulnerable sections of society.

2.3 Grant Amount Requested (INR 350 Crores)

Breakdown of Budget Allocation

Expense Category	Estimated Cost (INR in Crores)
Land Acquisition & Site Development	100
Construction of Shelter Home	70
Construction of Old Age Home	60
Construction of Orphanage	60
Furniture, Beds, and Basic Amenities	15
Food and Nutrition Support	10
Medical Facilities and Psychological Counseling	10
Educational and Vocational Training Programs	15
Operational and Administrative Expenses	5
Awareness and Outreach Programs	5
Total Grant Amount Requested	**350 Crores**

The **comprehensive budget** ensures **optimal resource allocation** to cover **infrastructure, welfare programs, operational sustainability, and outreach initiatives**.

2.4 Target Beneficiaries

The *Aasra* project will support **homeless individuals, abandoned children, and elderly citizens** who lack financial or familial support.

Primary Beneficiaries of the Project

Category of Beneficiaries	Estimated Number
Homeless individuals (Shelter Home)	500
Orphaned and abandoned children (Orphanage)	500
Elderly citizens (Old Age Home)	300
Total Expected Beneficiaries Per Year	**1,300**

Impact on Beneficiaries

1. **Safe and Secure Housing:** Ensuring dignified living for 1,300 individuals annually.
2. **Food Security:** Providing nutritious meals to **all residents**, reducing malnutrition and hunger-related issues.
3. **Healthcare Services:** Access to **medical care, mental health counseling, and rehabilitation support**.
4. **Education and Skill Development: Formal schooling for children** and **vocational training for adults** to promote self-reliance.
5. **Social Reintegration: Reuniting lost individuals with families** and facilitating employment opportunities.

2.5 Project Duration and Implementation Plan

The *Aasra* project will be implemented over a **5-year period**, ensuring a **systematic and sustainable approach**.

Phased Implementation Timeline

Phase	Timeframe	Key Activities
Phase 1	Year 1	Land acquisition, feasibility study, partnership building, approvals from authorities
Phase 2	Year 2	Construction of Shelter Home, Old Age Home, and Orphanage
Phase 3	Year 3	Recruitment of staff, procurement of resources, setting up infrastructure
Phase 4	Year 4	Onboarding of beneficiaries, initiating food, healthcare, and educational services
Phase 5	Year 5	Sustainable revenue model establishment, scaling up employment initiatives, project evaluation

Each phase ensures **structured execution, monitoring, and long-term sustainability**.

---

3. NGO Profile

3.1 Name of the Organization

Swa Manjulabai Shankarrao Mane Samajik Shaikshanik Sanstha

3.2 Year of Establishment

2012

3.3 Registered Address

Office NO. 06 Plot No. C-2A Shree Ganesh Mini Market sector 12 kharghar

3.4 Legal Registration Details

Swa Manjulabai Shankarrao Mane Samajik Shaikshanik Sanstha is a legally registered non-profit organization under the following acts:

Legal Status	Registration Details
Type of Organization	**Registered Trust**
Registration Act	**The Bombay Public Trusts Act, 1950**
Date of Registration	**13/04/2012**
Geographical Scope	**Maharashtra (with outreach programs across India)**

3.5 Compliance and Certification Details

The NGO has obtained all necessary legal and financial approvals to operate efficiently and receive funding from various sources.

Compliance Certification	Status
PAN (Permanent Account Number)	Active
12A Registration	Approved
80G Registration (Tax Exemption for Donors)	Approved
FCRA (Foreign Contribution Regulation Act) Registration	Not Applicable
DONATION-1 Registration (For DONATION Funding Eligibility)	Approved
GST Registration	Active

These certifications allow the organization to **receive tax-exempt donations**, apply for **government and DONATION grants**, and collaborate with **national and international donors**.

3.6 Vision and Mission

Vision Statement

"To create a society where every homeless individual, orphaned child, and elderly person has access to shelter, healthcare, education, and opportunities for a dignified life."

Mission Statement

1. **Provide Safe Shelter:** Establish and maintain shelter homes, old age homes, and orphanages.
2. **Ensure Holistic Development:** Offer education, skill-building programs, healthcare, and livelihood opportunities.
3. **Promote Social Inclusion:** Facilitate community-based rehabilitation and family reintegration.
4. **Enable Self-Reliance:** Implement vocational training and employment programs for underprivileged individuals.
5. **Collaborate for Impact:** Partner with government agencies, corporations, and community organizations to amplify social impact.

3.7 Impact Created So Far

The organization has transformed lives across Maharashtra through structured interventions. The following statistics highlight its contributions:

Overall Beneficiaries Reached (Since Inception)

Category	Number of Beneficiaries
Shelter Homes (Homeless Individuals)	5,000+
Orphanage Support (Children Rescued & Rehabilitated)	3,500+
Old Age Home Residents	2,000+
Skill Training & Livelihood Programs	10,000+
Education Support for Underprivileged Children	7,500+
Food & Nutrition Support (Daily Meal Programs)	50,000+
Medical & Psychological Counseling Services	20,000+

Breakdown of Key Impact Areas

1. Shelter and Rehabilitation

- **3,500+ orphaned children provided permanent shelter, education, and care.**
- **2,000+ elderly individuals given a dignified life with full-time care and medical assistance.**
- **5,000+ homeless individuals given temporary and long-term shelter facilities.**

2. Education & Skill Development

- **10,000+ women trained in vocational skills like tailoring, handicrafts, and digital literacy.**
- **7,500+ children received full educational sponsorships.**

- **80% of trained individuals successfully placed in jobs or started their own businesses.**

3. Healthcare & Nutrition

- **50,000+ meals distributed annually to the homeless and underprivileged communities.**
- **20,000+ beneficiaries received medical aid, psychological counseling, and rehabilitation support.**
- **95% of old-age home residents showed improved health indicators due to better nutrition and medical care.**

Case Study: Transformation Through Shelter and Care

One of the most impactful stories is that of **Meena Tai**, an 82-year-old woman abandoned by her family. She was found living on the streets with no access to food or medical care. After being admitted to our **Anand Old Age Home**, she received immediate medical attention, nutritious meals, and a safe place to live. Today, she actively participates in community activities, helping other elderly residents regain their confidence and dignity.

Conclusion

Swa. Manjulabai Shankarrao Mane Samajik Shaikshanik Sanstha has established itself as a **trusted and impactful organization** dedicated to the **welfare of the homeless, elderly, and orphaned children**. Through its **shelter homes, education programs, healthcare initiatives, and livelihood training**, it has successfully improved **the quality of life for thousands** of underprivileged individuals.

With the proposed **Aasra project**, the organization aims to **expand its impact, providing a structured, long-term solution** to the growing needs of vulnerable communities. The project will **strengthen ongoing efforts, ensuring that every homeless individual, orphaned child, and elderly citizen receives the care, respect, and opportunities they deserve**.

4. Project Introduction

4.1 Name of the Project

Aasra – Where Every Heart Finds a Safe Home

The **Aasra Project** is a holistic initiative aimed at establishing and managing **a shelter home, an old age home, and an orphanage** to provide **safe housing, healthcare, education, and emotional support** to vulnerable individuals. This project is a **long-term sustainable intervention** that seeks to rehabilitate and uplift the lives of the **homeless, orphaned children, and abandoned elderly** in Maharashtra.

4.2 Need for the Project

India faces a severe crisis in terms of **homelessness, elderly neglect, and orphaned children**. According to various reports:

- **1.77 million people** in India are homeless, lacking access to proper shelter.
- **31 million elderly individuals** are abandoned or living in poor conditions.
- **Over 20 million orphaned children** lack parental care and essential support systems.
- **Maharashtra alone has over 200,000 homeless individuals,** with **Mumbai being one of the most affected cities.**

The **Aasra Project** addresses this crisis by creating a **comprehensive residential support system** for these vulnerable groups, ensuring that they receive **food, healthcare, education, vocational training, and psychological support** to lead a dignified life.

4.3 Current Scenario and Challenges Faced

1. Homeless Population and Lack of Shelters

- **Severe shortage of shelter homes** in urban and rural Maharashtra.
- Majority of **homeless individuals live on the streets**, exposed to extreme weather conditions and unsafe environments.
- **High risk of physical and mental health issues**, including malnutrition, substance abuse, and violence.

2. Orphaned Children and Their Struggles

- Lack of **institutional care, education, and emotional support** for orphaned children.
- Vulnerability to **child labor, trafficking, and abuse** due to lack of proper guidance and security.
- **Insufficient government-run orphanages** and **low adoption rates** leading to prolonged institutionalization.

3. Neglect of the Elderly Population

- Increasing number of **elderly individuals abandoned by their families** due to financial constraints or social stigma.
- Many elderly face **loneliness, financial insecurity, and health issues**, leading to **poor quality of life**.
- **Limited number of old age homes** with proper medical and psychological care.

4. Challenges in Existing Welfare Systems

- **Inadequate government support and funding** for shelter homes and old age care.
- **Lack of trained caregivers and medical professionals** in most shelters.
- **Social stigma** against orphanages and old age homes, making it difficult to integrate beneficiaries into mainstream society.

The **Aasra Project** is designed to **tackle these challenges through a structured and sustainable model**, ensuring **long-term impact and self-sufficiency**.

4.4 Target Location and Demographics

The project will be implemented in **Mumbai, Maharashtra**, focusing on the most vulnerable populations in urban and semi-urban areas.

Target Beneficiaries

Category	Number of Beneficiaries (Annually)
Homeless Individuals (Shelter Home)	500+
Orphaned Children (Anath Ashram)	200+
Elderly Citizens (Old Age Home)	300+
Vocational Training for Self-Sufficiency	1,000+
Healthcare Support (Mental & Physical Health)	2,500+

Demographics Covered

- **Age Group:** All age groups (children, adults, and elderly).
- **Gender:** Open to all genders, with specific provisions for women and children.
- **Geographical Focus:** Maharashtra, with scope for expansion based on impact assessment.

The project will also cater to **migrants, people with disabilities, and victims of domestic violence**, ensuring **inclusive development**.

4.5 Alignment with National and Global Goals

The **Aasra Project** aligns with key national initiatives and **United Nations Sustainable Development Goals (SDGs)** to ensure a structured, impact-driven approach.

1. Alignment with National Goals

Government Program/Policy	Relevance to Aasra Project
Pradhan Mantri Awas Yojana (PMAY)	Addresses the **housing crisis** for vulnerable individuals.
National Policy on Senior Citizens	Provides care and shelter to **elderly individuals** abandoned by families.
Integrated Child Protection Scheme (ICPS)	Ensures **safe rehabilitation and education** for orphaned children.
National Urban Livelihoods Mission (NULM)	Supports **skill development** and livelihood training for homeless individuals.
Ayushman Bharat (Health Insurance Scheme)	Provides **healthcare access** to shelter home residents.

2. Alignment with United Nations Sustainable Development Goals (SDGs)

SDG Goal	How Aasra Project Contributes
SDG 1: No Poverty	Provides **housing, food, and rehabilitation** to the homeless and elderly.
SDG 2: Zero Hunger	Ensures **nutritional security** for shelter home residents.
SDG 3: Good Health and Well-being	Offers **medical care, mental health support, and sanitation** facilities.
SDG 4: Quality Education	Provides **education and vocational training** for orphaned children and homeless adults.
SDG 8: Decent Work and Economic Growth	Facilitates **skill-building and employment opportunities** for beneficiaries.
SDG 10: Reduced Inequalities	Supports **marginalized communities**, ensuring **social inclusion**.
SDG 11: Sustainable Cities and Communities	Establishes **safe, community-driven housing models** for vulnerable groups.

The **Aasra Project** is not just a **welfare initiative**; it is a **systematic, scalable model** that aligns with **government policies, SDGs, and long-term sustainable development frameworks.**

---

5. Objectives of the Project

The **Aasra Project** is a strategic initiative designed to provide **shelter, security, healthcare, education, and long-term empowerment** to three highly vulnerable groups in society:

1. **Homeless individuals** who lack basic shelter and are forced to live on the streets.
2. **Orphaned and abandoned children** who require a nurturing home, education, and emotional support.
3. **Elderly individuals** who have been abandoned by their families and need care, dignity, and companionship.

Through the establishment of three dedicated facilities—a **shelter home**, an **old age home**, and an **orphanage**—this project aims to **provide a comprehensive support system** that addresses the **immediate needs and long-term well-being** of these individuals.

The project will focus on **five core areas**: providing a **safe living environment**, ensuring **access to healthcare and nutrition**, facilitating **education and skill development**, promoting **mental and emotional well-being**, and supporting **social reintegration**.

5.1 Primary Objectives

The **primary objectives** of the Aasra Project are:

Providing Shelter and a Safe Living Environment

One of the fundamental aims of this project is to ensure that every individual—whether a homeless person, an orphaned child, or an elderly individual—has a safe and secure place to live.

- The **shelter home** will serve as a safe haven for homeless individuals who have been living on the streets without basic amenities. It will offer **clean and comfortable living spaces**, along with **daily meals, personal hygiene facilities, and sleeping arrangements**.
- The **old age home** will provide a **supportive and caring environment** for elderly individuals who have been neglected or abandoned by their families. It will ensure they receive **proper nutrition, healthcare, and emotional support**.
- The **orphanage** will provide a **nurturing home** for children who have lost their families. It will ensure they receive **education, psychological care, and skill development opportunities** to prepare them for independent life.

By **establishing and maintaining these three facilities**, the project aims to **eliminate homelessness, reduce the number of elderly individuals struggling alone, and ensure orphaned children receive the care and opportunities they deserve**.

Ensuring Access to Healthcare and Nutrition

Homeless individuals, orphaned children, and elderly people often suffer from **poor health due to lack of access to medical care and proper nutrition**. Many of them are malnourished, suffer from chronic illnesses, or have unaddressed mental health issues.

To combat these issues, the Aasra Project will implement a **comprehensive healthcare system** that includes:

- **Regular medical check-ups** for all residents, conducted by **qualified doctors and healthcare professionals**.
- **Round-the-clock medical assistance**, including emergency care for elderly residents who may suffer from age-related health conditions.
- **Mental health support services**, such as **counseling, therapy, and psychological support groups**, to help residents cope with trauma, depression, or anxiety.
- **A balanced and nutritious diet** tailored to meet the dietary needs of different age groups. This will include **fresh fruits, vegetables, proteins, and essential vitamins** to prevent malnutrition.
- **Health and hygiene awareness programs** to educate residents on maintaining **personal hygiene, disease prevention, and healthy lifestyles**.

By **prioritizing health and nutrition**, the project ensures that **every resident receives the necessary medical attention, stays healthy, and lives with dignity**.

Facilitating Education and Skill Development

Providing shelter alone is not enough to break the cycle of poverty and homelessness. It is essential to equip residents with the **knowledge and skills they need to lead independent lives**.

For **orphaned children**, this means:

- Enrolling them in **formal schooling** and ensuring they complete their education.
- Offering **tutoring, career guidance, and extracurricular activities** to develop their talents and interests.
- Providing **college scholarships and vocational training** for older children to help them transition into self-sufficient adults.

For **homeless individuals and elderly residents**, the project will provide:

- **Skill development programs** such as **tailoring, carpentry, handicrafts, and digital literacy** to help them earn a livelihood.
- **Vocational training in agriculture, organic farming, and small-scale business management** to encourage financial independence.
- **Employment assistance programs**, where trained individuals will be connected with **companies, NGOs, and social enterprises** for job placements.

By focusing on **education and skill development**, the project ensures that residents are **not only supported in the short term but are also empowered to sustain themselves in the future**.

Promoting Mental and Emotional Well-being

Many individuals who will benefit from the Aasra Project have faced **significant trauma, neglect, or abuse** in their past. Simply providing them with food and shelter is not enough—they also need **emotional support and a sense of belonging**.

To address this, the project will:

- **Provide counseling and psychological therapy** to help residents heal from past experiences.
- **Conduct group therapy sessions** where residents can share their feelings and find support in a community setting.
- **Introduce meditation, yoga, and mindfulness activities** to help individuals manage stress, anxiety, and emotional distress.
- **Encourage social bonding through interactive activities**, such as **group discussions, storytelling, music, and recreational games**.
- **Create a mentorship program**, where elderly residents can **guide and support younger residents**, fostering a sense of purpose and mutual respect.

By **prioritizing mental health**, the project ensures that all residents feel **valued, emotionally secure, and part of a supportive community**.

Supporting Social Reintegration and Legal Aid

One of the ultimate goals of the Aasra Project is to **help residents reintegrate into society as independent and productive individuals**.

To achieve this, the project will:

- **Assist individuals in obtaining identity documents (Aadhar Card, Ration Card, Voter ID, etc.)**, which are essential for accessing government benefits and employment.
- **Provide legal aid for elderly residents** who may be victims of property disputes, financial fraud, or mistreatment.
- **Reconnect orphaned children and elderly individuals with extended family members**, where possible, to help them rebuild relationships and find emotional support.
- **Partner with businesses and NGOs** to facilitate **job placements, apprenticeships, and internships** for skilled individuals.
- **Create a transition program** that gradually helps rehabilitated individuals move out of the shelter and live independently.

By focusing on **social reintegration**, the Aasra Project aims to **restore dignity, independence, and self-sufficiency** to every resident.

5.2 Specific Goals and Measurable Outcomes

Objective	Expected Annual Impact
Provide shelter to homeless individuals	**500+ individuals housed per year**
Offer care and security to elderly residents	**300+ elderly individuals supported**
Provide education to orphaned children	**200+ children enrolled in school**
Offer vocational training programs	**1,000+ individuals trained annually**
Secure employment for skilled beneficiaries	**300+ job placements per year**
Conduct mental health and counseling sessions	**70% reduction in anxiety and depression**
Establish family reunification programs	**Rehabilitate 200+ individuals into families**

5.3 Long-Term Sustainability Objectives

To ensure the longevity of the project, the following **sustainability measures** will be implemented:

- **Financial Sustainability**: Revenue will be generated through **DONATION partnerships, fundraising campaigns, and self-sustaining businesses** such as **handicrafts, organic farming, and vocational training programs**.
- **Operational Efficiency**: Energy costs will be reduced by **installing solar panels, rainwater harvesting systems, and biogas plants**.
- **Community Engagement**: Volunteers, student interns, and corporate sponsors will be actively involved in project operations and funding.
- **Expansion Plan**: After successfully running the model in Mumbai, the project will be expanded to **other cities** based on demand and impact assessment.

By ensuring a **sustainable and scalable approach**, the Aasra Project will **continue to impact lives for generations to come**.

6. Project Implementation Plan

The **Aasra Project** is designed to be implemented in a structured and phased manner to ensure long-term impact, sustainability, and efficiency. The approach will focus on establishing **a well-equipped shelter home, an orphanage, and an old-age home** while providing essential services such as **education, healthcare, psychological support, and skill development** for beneficiaries. The implementation strategy will involve multiple stakeholders, including **government bodies, corporate donors, NGOs, and community volunteers**, ensuring an inclusive and collaborative approach.

The project will follow a **step-by-step methodology**, from initial **planning and infrastructure development to full-scale implementation, monitoring, and evaluation**. Each phase will have clearly defined activities, timelines, and measurable outcomes to track progress and ensure the project meets its intended objectives.

6.1 Project Methodology

The methodology for implementing the **Aasra Project** is designed to be **comprehensive, multi-faceted, and sustainable**. It is built upon three core principles:

1. Holistic and Integrated Approach

The project does not merely provide shelter but also integrates multiple support services such as **mental health counseling, vocational training, education, healthcare, and legal support**. This ensures that beneficiaries are not just housed but are also empowered to become self-reliant and integrated into society.

2. Evidence-Based Decision Making

Before initiating the project, an extensive **community needs assessment** was conducted to understand the **socioeconomic conditions, demographic requirements, and specific challenges** faced by homeless individuals, orphaned children, and abandoned elderly people. The findings from these studies have helped design tailored solutions that cater to the unique needs of each group.

3. Multi-Stakeholder Collaboration

The success of the project depends on **collaborations with various stakeholders**, including:

- **Government Departments** (for policy approvals and financial support)
- **Corporate Social Responsibility (DONATION) Initiatives** (for funding and resources)
- **NGOs and Civil Society Organizations** (for implementation support)
- **Local Community Volunteers** (for mentoring and outreach programs)

By combining these elements, the project ensures **maximum efficiency, transparency, and effectiveness** in its implementation.

6.2 Implementation Phases and Timeline

The project will be implemented in **four key phases**, spanning **24 months** to allow for systematic progress and assessment at each stage. Each phase will focus on achieving specific milestones to ensure the successful execution of the project.

Phase 1: Planning & Approvals (0-3 Months)

The initial phase involves groundwork, including securing permissions, finalizing locations, and mobilizing resources.

- **Legal Compliance:** Registering the project under the appropriate **government and NGO frameworks**, securing land approvals, and ensuring all regulatory clearances are met.
- **Partnership Development:** Engaging with **corporate sponsors, government agencies, and private donors** to secure funding commitments.
- **Baseline Data Collection:** Conducting surveys to assess **demographics, needs, and expected impact** of the project.
- **Financial Structuring:** Allocating **budget** for land purchase, construction, and operational costs.

Phase 2: Infrastructure Development (3-12 Months)

This phase focuses on **building and equipping the three facilities** with the necessary infrastructure and resources.

- **Construction of Facilities:** Establishing the **shelter home, orphanage, and old-age home** with essential amenities.
- **Procurement of Equipment and Materials:** Setting up **medical facilities, classrooms, dormitories, kitchens, and recreational spaces**.
- **Sustainability Measures:** Installing **solar panels, rainwater harvesting, and energy-efficient systems** to ensure long-term sustainability.

Phase 3: Recruitment & Capacity Building (12-18 Months)

Once the facilities are established, this phase involves **hiring and training personnel** to ensure smooth operations.

- **Staff Recruitment:** Employing **social workers, caregivers, medical professionals, security personnel, and teachers** to provide round-the-clock services.
- **Volunteer Engagement:** Recruiting volunteers for **mentorship programs, community outreach, and skill training initiatives**.
- **Capacity Building:** Organizing **training workshops for caregivers and staff** to enhance their ability to provide high-quality care.

Phase 4: Program Rollout & Monitoring (18-24 Months)

In this phase, the facilities begin full operations, with a focus on ensuring the well-being and development of beneficiaries.

- **Admission of Beneficiaries:** Identifying and housing eligible homeless individuals, orphans, and elderly individuals.
- **Service Implementation:** Providing **education, skill training, healthcare, and counseling**.
- **Monitoring & Evaluation:** Establishing **tracking mechanisms** to measure **impact and effectiveness**.

6.3 Key Activities Under Each Phase

Each phase consists of several key activities designed to **meet project goals efficiently**.

Phase 1: Key Activities

- Conduct **stakeholder meetings** and finalize partnerships.
- Identify land for project infrastructure and obtain approvals.
- Develop **budget allocation plans** and seek funding commitments.
- Carry out **community outreach programs** to generate awareness.

Phase 2: Key Activities

- Hire contractors and initiate **construction** of the facilities.
- Procure **beds, furniture, medical equipment, kitchen appliances, and school supplies**.
- Install **security systems**, including **CCTV cameras and biometric access**.
- Establish **separate sections for children, elderly individuals, and homeless persons** to ensure a structured environment.

Phase 3: Key Activities

- Recruit and train **caregivers, nurses, teachers, and counselors**.
- Develop **structured learning and vocational training programs**.
- Establish **healthcare partnerships** for medical services and wellness programs.

Phase 4: Key Activities

- Launch the **admission process** and conduct medical check-ups for new residents.
- Implement **educational and livelihood programs**.
- Conduct **periodic impact assessments** to refine service delivery.

6.4 Required Infrastructure and Resources

Physical Infrastructure

- **Shelter Home:** A safe and secure **residential facility** with dormitories, dining halls, medical rooms, and recreational areas.
- **Orphanage:** A nurturing environment with **classrooms, playgrounds, libraries, and counseling centers**.
- **Old Age Home:** A specialized facility with **medical support, social areas, and therapy rooms**.

Human Resources

- **Project Director:** Responsible for overall project execution.
- **Social Workers & Caregivers:** Provide emotional and psychological support.
- **Doctors & Nurses:** Offer healthcare services and medical check-ups.
- **Educators & Trainers:** Conduct **vocational training and education**.

6.5 Risk Assessment and Mitigation Strategies

Risk assessment ensures that potential **challenges** are anticipated and addressed effectively.

Risk Factor	Impact	Mitigation Strategy
Funding Shortages	Delay in implementation	**Diversify funding sources (DONATION, crowdfunding, govt grants)**
Regulatory Delays	Project approval issues	**Engage legal experts early, streamline paperwork**
Community Resistance	Slowed progress	**Awareness campaigns to educate stakeholders**
Operational Challenges	Staff shortages, inefficient services	**Continuous recruitment and capacity building**
Health Risks	Disease outbreaks, medical emergencies	**Regular health check-ups, sanitation measures**

7. Target Beneficiaries

The **Aasra Project** aims to provide **comprehensive support** to three vulnerable groups: **homeless individuals, orphaned children, and abandoned elderly individuals**. The initiative is designed to address their **basic needs**, empower them with **education and skills**, and integrate them into **mainstream society**.

The selection of beneficiaries will be based on **specific socio-economic and demographic criteria**, ensuring that the most marginalized and vulnerable individuals receive assistance. The project will also track **key impact indicators** to measure improvements in their **quality of life, health, education, and employment opportunities**.

7.1 Demographic Details (Age, Gender, Socio-Economic Background)

The target beneficiaries of the **Aasra Project** belong to the most **underprivileged sections** of society. They are classified into three primary groups:

1. Orphaned and Abandoned Children

- **Age Group:** 0 to 18 years
- **Gender:** Male and female
- **Socio-Economic Background:**
    - Children who have lost both parents or whose parents are unable to care for them.
    - Street children living in extreme poverty without access to education and healthcare.
    - Children from abusive or neglectful households who require protection.

2. Homeless and Destitute Individuals

- **Age Group:** 18 to 60 years
- **Gender:** Male and female
- **Socio-Economic Background:**
    - Individuals living in extreme poverty with no means of livelihood.
    - Unemployed individuals struggling with homelessness and hunger.
    - Victims of **domestic violence, human trafficking, or substance abuse** who need rehabilitation.

3. Abandoned Elderly Individuals

- **Age Group:** 60 years and above
- **Gender:** Male and female
- **Socio-Economic Background:**
    - Senior citizens abandoned by their families or without financial support.
    - Elderly people suffering from chronic illnesses or disabilities.
    - Homeless elderly individuals with no access to healthcare, shelter, or food.

By catering to these three groups, the **Aasra Project** aims to build an **inclusive, safe, and empowering environment** that fosters dignity, self-reliance, and social reintegration.

7.2 Estimated Number of Beneficiaries

The project will provide **shelter, education, healthcare, and vocational training** to a large number of people over time. The estimated **direct beneficiaries** of the project are:

Category	Year 1	Year 2	Year 3	Total (3 Years)
Orphaned Children	100	150	200	450
Homeless Individuals	150	200	250	600
Abandoned Elderly	80	120	150	350
Total Beneficiaries	330	470	600	**1,400**

Additionally, the project will impact **indirect beneficiaries**, including:

- Families and relatives of rehabilitated individuals.
- Local communities benefiting from reduced homelessness and crime.
- Employers gaining access to a skilled workforce through vocational training programs.

7.3 Selection Criteria

The selection of beneficiaries will be conducted through a **transparent and needs-based approach** to ensure that **only the most vulnerable individuals receive support**.

Selection Process:

1. **Field Surveys and Identification:**
   - A team of **social workers and volunteers** will conduct **on-ground assessments** in slums, railway stations, bus stops, and other public areas to identify potential beneficiaries.
   - Coordination with **local authorities, police, hospitals, and NGOs** to identify high-risk individuals.
2. **Screening and Verification:**
   - Candidates will be evaluated based on **economic status, family background, health condition, and need for support**.
   - Proper **documentation and verification** will be conducted to ensure that assistance is directed toward genuine cases.
3. **Admission into the Program:**
   - Selected individuals will be **enrolled in the Aasra Project**, with an initial **health check-up and psychological assessment** to determine their immediate needs.
   - Children will be enrolled in **educational programs**, while adults and elderly beneficiaries will receive **medical care, vocational training, and legal assistance**.

Eligibility Criteria:

Category	Eligibility
Orphaned Children	Children aged 0-18 years with no parental support, extreme poverty, or risk of abuse.
Homeless Individuals	Unemployed, destitute adults living without shelter, struggling with extreme poverty.
Abandoned Elderly	Senior citizens aged 60+ without family, financial support, or access to healthcare.

By following a structured **screening and verification process**, the project ensures that the **right individuals receive timely and effective assistance**.

7.4 Expected Impact on Beneficiaries

The **Aasra Project** is expected to **transform the lives** of beneficiaries by **providing long-term support** in key areas such as **housing, health, education, and employment**. The project will bring **measurable social, economic, and psychological benefits** to all enrolled individuals.

1. Impact on Orphaned Children

Intervention	Expected Outcome
Education & Skill Development	80% of children will complete schooling, leading to better career prospects.
Psychological Support	Reduction in trauma-related issues, leading to healthier emotional development.
Health & Nutrition	Improved physical and cognitive health due to balanced nutrition and medical care.

2. Impact on Homeless Individuals

Intervention	Expected Outcome
Rehabilitation & Shelter	60% of homeless beneficiaries will secure stable housing within 3 years.
Skill Training & Employment	70% of rehabilitated individuals will gain sustainable employment.
Mental Health & Addiction Recovery	50% reduction in substance abuse among beneficiaries.

3. Impact on Abandoned Elderly

Intervention	Expected Outcome
Healthcare & Medical Support	80% of elderly individuals will receive regular medical check-ups, leading to improved health.
Community Engagement	60% of elderly beneficiaries will participate in community programs, reducing loneliness and depression.
Legal & Financial Support	Many elderly individuals will regain access to pension benefits, reducing financial vulnerability.

8. Financial Plan & Budget

Overview

The **Aasra Project** aims to provide **shelter, education, healthcare, skill training, and rehabilitation** to vulnerable sections of society, including **homeless individuals, orphaned children, and abandoned elderly citizens**. To achieve this, a total fund of **₹350 crores** has been planned for the **infrastructure development, operational costs, training programs, and sustainability initiatives**.

This section provides **detailed fund allocation**, covering **year-wise budget planning, cost categories, justifications, and financial sustainability strategies**.

8.1 Total Budget Breakdown (₹350 Crores)

The budget is categorized into different expenditure heads to ensure efficient fund utilization.

High-Level Budget Summary

Expense Category	Budget Allocation (₹ Crores)	Percentage of Total Budget
Infrastructure Development	120	34.3%
Operational & Maintenance Costs	80	22.9%
Skill Training & Education	50	14.3%
Healthcare & Nutrition	40	11.4%
Staff Salaries & Administration	25	7.1%
Technology & Digital Infrastructure	15	4.3%
Legal Aid & Rehabilitation Support	10	2.9%
Monitoring & Evaluation	5	1.4%
Contingency & Emergency Fund	5	1.4%
Total Budget	**350**	**100%**

8.2 Year-wise Budget Allocation

To ensure efficient implementation, the budget will be distributed over **five years**, covering different project phases.

Year	Budget Allocation (₹ Crores)	Key Focus Areas
Year 1	80	Land acquisition, infrastructure development, recruitment of staff, procurement of basic equipment
Year 2	90	Expansion of facilities, establishment of training centers, healthcare setup, partnerships with local authorities
Year 3	70	Strengthening education programs, digital infrastructure, and employment-oriented training
Year 4	60	Scaling operations, launching self-sustainability models, vocational training expansion
Year 5	50	Sustainability strategies, partnership expansion, impact monitoring & evaluation
Total	**350**	**Comprehensive execution & expansion**

This ensures **stepwise fund allocation** to facilitate **structured execution, monitoring, and adjustments as required.**

8.3 Detailed Cost Categorization

1. Infrastructure Development (₹120 Crores)

Infrastructure investment ensures **permanent facilities** for beneficiaries.

Expense	Budget (₹ Crores)	Purpose
Construction of 50 shelter homes	60	Housing for homeless individuals, orphaned children, and elderly citizens
Schools & vocational training centers	25	Establishing training centers with classrooms and labs
Healthcare & rehabilitation centers	20	Setup of hospitals, mental health support, and rehabilitation services
Renewable energy & green infrastructure	10	Solar panels, water conservation units, and eco-friendly buildings
Security, furniture, and utilities	5	Safety measures, basic infrastructure, and utilities
Total	**120**	**Long-term sustainability & expansion**

---

2. Operational & Maintenance Costs (₹80 Crores)

To ensure **smooth daily operations and high-quality services.**

Expense	Budget (₹ Crores)	Purpose
Food, clothing, and basic needs	40	Nutritious meals, hygiene kits, and clothing for beneficiaries
Transportation & logistics	20	Safe movement of beneficiaries and logistics for supplies
Legal aid & identity documentation	10	Legal counseling, ID proofs, access to government welfare schemes
Utilities (electricity, water, sanitation)	10	Continuous power, clean water, and waste management
Total	**80**	**Daily sustainability & operations**

---

3. Skill Training & Education (₹50 Crores)

Focus on **empowering beneficiaries with employability skills.**

Expense	Budget (₹ Crores)	Purpose
Vocational skill programs	30	Hands-on training in tailoring, carpentry, retail, IT, agriculture
Digital literacy education	10	Online courses, job training, and IT certifications
Teacher training & curriculum	10	Development of structured courses aligned with job markets
Total	**50**	**Economic independence & employment**

---

4. Healthcare & Nutrition (₹40 Crores)

Essential healthcare services for **preventive and curative care.**

Expense	Budget (₹ Crores)	Purpose
Medical infrastructure setup	20	Hospitals, emergency units, mental health clinics
Medical staff salaries	10	Hiring doctors, nurses, and paramedics
Nutritional programs	10	Ensuring balanced meals for all beneficiaries
Total	**40**	**Health & well-being**

8.4 Justification of Fund Utilization

- **Infrastructure as a Long-Term Investment:** Permanent structures ensure long-term impact with minimal recurring costs.
- **Education & Skill Training for Economic Independence:** Ensuring self-sufficiency and employment for beneficiaries.
- **Transparent Financial Reporting:** Funds will be **monitored via audits, financial reporting, and third-party evaluations**.
- **Strategic Phase-wise Implementation:** Preventing mismanagement of large fund disbursements at once.

8.5 Financial Sustainability Plan

To ensure the project is **self-sufficient beyond five years**, the following strategies will be implemented:

1. Government & DONATIONGrants

- Partnerships with **corporates under DONATIONinitiatives** for sustained funding.
- Leveraging **government social welfare schemes** to access additional grants.

2. Social Enterprise Model

- Establishing **handicraft and vocational training units** where trained beneficiaries will produce goods (textiles, bakery, IT services).
- **Minimal training fees** for external vocational students to generate revenue.

3. Crowdfunding & Public Donations

- Setting up **an online donation platform** to attract individual donors.
- **Organizing fundraising events, social media campaigns**, and collaborations with celebrities and influencers.

4. Investment in Endowment & Fixed Assets

- A portion of funds will be invested in **low-risk financial instruments** to create **passive income** for operational sustainability.

Conclusion

This **₹350 crore budget** is structured to ensure **maximum efficiency, long-term sustainability, and impact-driven execution**. Through **proper fund allocation, transparency, and self-sustaining financial models**, the **Aasra Project** will transform thousands of lives while ensuring **financial independence beyond the initial grant period**.

The next section will cover **Monitoring & Evaluation Strategies** for tracking success.

9. Monitoring and Evaluation Plan

Overview

Monitoring and evaluation (M&E) is a critical component of the **Aasra Project**, ensuring that **objectives are met efficiently and impactfully.** A structured M&E framework will help in **assessing progress, identifying challenges, making data-driven decisions, and ensuring accountability**.

This section details the **key performance indicators (KPIs), data collection methods, evaluation frequency, and third-party evaluations** for an effective monitoring system.

9.1 Key Performance Indicators (KPIs)

KPIs will measure the effectiveness of the project across different impact areas. The table below outlines the **quantitative and qualitative KPIs.**

Performance Indicators by Key Areas

Category	Key Performance Indicators (KPIs)	Measurement Criteria	Target Value
Infrastructure Development	Number of shelter homes, schools, and healthcare centers built	% completion of construction & functionality	50 shelters, 20 schools, 10 hospitals
Operational Efficiency	Beneficiary satisfaction rate	Surveys & feedback forms (scale of 1-10)	>80% positive responses
Skill Development & Education	Number of beneficiaries completing vocational training	Certificates issued, job placement percentage	50,000 trained, 70% job placements
Employment Generation	Number of individuals employed post-training	Verified job offers, business startups	35,000+ employed
Healthcare Services	Number of medical check-ups and treatments provided	Electronic Medical Records (EMR) data	1,00,000 medical treatments/year
Nutritional Support	Number of beneficiaries receiving meals	Daily meal distribution logs	1,50,000 meals/month
Financial Sustainability	Percentage of funds utilized as per planned budget	Budget expenditure reports	>90% as per allocation
Social Impact	Improvement in income levels of beneficiaries	Household income surveys (before & after project)	50% increase in income
Digital Infrastructure	% of beneficiaries with digital literacy certification	Online exam results, usage statistics	60% of total beneficiaries trained

9.2 Data Collection Methods

A robust data collection system is essential for **accurate reporting and decision-making.** The following methods will be used:

Primary Data Collection

Method	Description	Frequency	Responsibility
Beneficiary Surveys	Feedback on services, satisfaction levels	Quarterly	Field Officers
Digital Attendance Records	Tracking participation in training & education programs	Daily	Training Coordinators
Healthcare Records	Medical check-ups, nutrition tracking, disease patterns	Monthly	Healthcare Staff
Employment Tracking	Job placements, earnings before and after training	Bi-annual	HR & Vocational Trainers
Infrastructure Audits	Physical verification of completed buildings	Annual	Infrastructure Team

Secondary Data Collection

Source	Type of Data	Usage
Government Databases	Socio-economic indicators, health records	Benchmarking and trend analysis
NGO Reports	Case studies, best practices	Comparative learning
Market Surveys	Employment trends, industry demands	Aligning training programs

9.3 Frequency of Evaluation and Reporting

Timely evaluations will help in **continuous improvement and transparency.**

Evaluation & Reporting Schedule

Evaluation Type	Frequency	Responsible Entity	Reporting Format
Internal Progress Review	Monthly	Project Management Team	Internal Reports
Operational Performance Review	Quarterly	NGO Leadership & Staff	Progress Reports
Impact Assessment	Bi-annual	Monitoring & Evaluation Unit	Impact Reports
Budget & Fund Utilization Audit	Annual	Finance & Audit Team	Financial Statements
Stakeholder Review Meetings	Annual	Donors, Govt. Agencies, Partners	Presentation & Reports

The frequency ensures **short-term course corrections and long-term impact measurement.**

9.4 Third-Party Evaluation (If Applicable)

Need for Third-Party Evaluation

To maintain **credibility and transparency**, external evaluations will be conducted by **independent agencies, funding bodies, and research organizations.**

Third-Party Evaluation Process

Stage	Evaluation Focus	Agency Involvement
Mid-Term Evaluation (Year 3)	Assessment of progress, fund utilization, impact measurement	Independent M&E Experts
End-of-Project Evaluation (Year 5)	Final impact analysis, sustainability assessment	Govt. Auditors, DONATION Partners

Types of Third-Party Evaluations

1. **Financial Audits**
   - Conducted by **independent financial auditors** to assess **fund transparency and compliance.**
   - Ensures that **>90% of allocated funds** are utilized efficiently.
2. **Social Impact Assessment**
   - Conducted by **research organizations** to measure the **long-term impact on beneficiaries.**
   - Uses **case studies, comparative studies, and social return on investment (SROI) methods.**
3. **Donor & DONATION Partner Review**
   - Large funding bodies (corporates, government agencies) will conduct independent impact assessments.
   - Evaluates the **effectiveness of funds invested and impact per ₹ spent.**
4. **Public & Media Scrutiny**
   - Annual **impact reports will be published online** for **transparency and public trust.**

---

10. Expected Outcomes and Impact

Overview

The project aims to **create sustainable improvements in the lives of the target beneficiaries** by providing **housing, education, healthcare, skill development, and employment opportunities**. The impact will be measured across **different timeframes** to ensure that the project achieves **both immediate relief and long-term transformation**.

This section details:

✓ **Short-term impact** (0-3 years)

✓ **Long-term benefits** (Beyond 3 years)

✓ **Success measurement metrics**

10.1 Short-Term Impact

The first **0-3 years** of the project will focus on **infrastructure development, initial beneficiary enrollment, and rapid implementation of core services**.

Key Short-Term Impact Areas (0-3 Years)

Impact Area	Expected Outcome	Measurement Criteria	Target Value
Shelter & Housing	Construction of 50 shelters	% completion of construction	100% by Year 3
Education	20,000 children enrolled in schools	School admission data	90% attendance rate
Healthcare	1,00,000 medical treatments provided	Health records	80% treatment success rate
Employment	35,000 individuals trained	Skill assessment results	70% job placements
Nutrition	1,50,000 meals distributed monthly	Food distribution logs	>95% meal coverage

Immediate Social Benefits

- **Homelessness Reduction**: At least **50,000 individuals provided with safe shelter**.
- **Access to Education**: Children who previously had **no access to education** will be **enrolled in schools**.
- **Employment Opportunities**: Vocational training will allow thousands of **youth and adults to secure jobs**.
- **Healthcare Improvement**: Access to **preventive and curative healthcare** will lead to **lower mortality and morbidity rates**.
- **Nutrition and Well-being**: Regular **meal programs** will reduce malnutrition in children and adults.

These **short-term goals** will lay the foundation for **sustained long-term impact**.

10.2 Long-Term Benefits

Beyond three years, the project aims to achieve **self-sustaining economic and social growth**. The focus will shift from **initial intervention to long-term development and empowerment.**

Projected Long-Term Benefits (3+ Years)

Benefit Area	Expected Outcome	Long-Term Impact
Permanent Shelter & Safety	100+ shelter homes fully operational	Reduction in homelessness
Improved Literacy & Education	90% literacy rate among beneficiaries	Increased employability
Stable Employment & Income	80% of trained individuals gain stable jobs	Poverty reduction
Better Health & Hygiene	50% decrease in disease rates	Improved life expectancy
Social Reintegration	Beneficiaries become financially independent	Reduced dependency on aid

Long-Term Economic and Social Impact

- **Economic Upliftment**: Over **₹500 crores will be generated in local economies** due to new job opportunities.
- **Reduction in Poverty Rates**: 70% of families will rise **above the poverty line** through skill training and job placements.
- **Higher Secondary and Vocational Education Enrollment**: The project will increase the number of **higher education graduates** from the target community.
- **Women's Empowerment**: More than **50,000 women will gain financial independence** through training and employment.

By **fostering self-reliance**, the project ensures that beneficiaries **transition from dependence to active contributors** to the economy.

10.3 Success Measurement Metrics

To **ensure transparency and accountability**, the project's success will be **measured through key indicators**. These metrics will be evaluated at **regular intervals** to track progress and make necessary adjustments.

Key Performance Indicators (KPIs)

Evaluation Parameter	Metric	Data Collection Method	Target Value
Shelter Utilization	No. of people accommodated	Monthly beneficiary records	50,000+
Job Placement Rate	% of employed beneficiaries	Follow-up surveys	70%
Healthcare Impact	Reduction in preventable diseases	Medical records	50% decrease
Nutritional Impact	% of beneficiaries with improved health	Health check-ups	75% improvement
Literacy Improvement	Increase in literacy rate	School attendance records	90%
Financial Independence	Average income rise post-training	Household income surveys	₹15,000+/month

Monitoring and Reporting Schedule

Evaluation Period	Metrics Tracked	Reporting Authority	Frequency
Quarterly	Shelter, food distribution, education enrollment	Project Monitoring Team	Every 3 months
Bi-Annual	Employment placements, health interventions	Independent Auditors	Every 6 months
Annual	Literacy rates, disease reduction, economic impact	Government & DONATION Partners	Every year

A **dedicated monitoring team** will track performance and provide **detailed impact reports** to stakeholders.

11. Partnerships and Collaborations

Overview

For a large-scale social impact project like **Aasra - Where Every Heart Finds a Safe Home**, successful execution relies on **multi-sectoral collaboration**. Partnerships with **government agencies, private corporations, NGOs, community organizations, volunteers, and donors** will provide:

✓ **Policy support and regulatory approvals**
✓ **Financial assistance and resource mobilization**
✓ **Infrastructure development and social services**
✓ **Skill-building programs for long-term sustainability**

A well-structured partnership model will ensure **efficient implementation, continuous impact assessment, and scalability**.

11.1 Government Partnerships

Why Government Collaboration is Essential

The government plays a **pivotal role in policymaking, funding, and providing essential resources**. Collaboration with **central, state, and local bodies** will ensure that the project aligns with national priorities and social welfare programs.

Key Areas of Government Involvement

Government Body	Role in the Project	Expected Support
Ministry of Housing and Urban Affairs	Shelter and rehabilitation programs	Land allocation and low-cost housing initiatives
Ministry of Women & Child Development	Support for women and children	Funding for nutrition, education, and skill-building
Ministry of Skill Development & Entrepreneurship	Vocational training and employment opportunities	Free training programs and certification courses
Ministry of Social Justice & Empowerment	Support for marginalized communities	Special schemes for SC/ST/OBC communities
State & Municipal Governments	Local implementation and governance	Infrastructure development, sanitation, and healthcare

Proposed Government Initiatives for Integration

✓ **PM Awas Yojana** – Affordable housing solutions
✓ **National Skill Development Mission** – Training for livelihood generation

✓ **Ayushman Bharat** – Healthcare for vulnerable populations
✓ **Rashtriya Mahila Kosh** – Financial aid for women's entrepreneurship

Government support will **ensure compliance, legitimacy, and financial backing** for project expansion.

11.2 DONATIONPartnerships and Corporate Involvement

The Role of Corporations in Social Impact

Corporate **Social Responsibility (DONATION)** is a major funding source under **Section 135 of the Companies Act, 2013**. Partnering with large **corporates, multinational companies (MNCs), and industry leaders** will ensure **long-term financial sustainability and expertise-driven support**.

Targeted DONATIONPartners and Their Contributions

Company/Industry	Expected Contribution	Utilization in the Project
Infrastructure & Real Estate Companies	Donations for construction materials	500+ housing units and community centers
Banking & Financial Institutions	Microfinance, financial literacy programs	Economic empowerment of beneficiaries
IT & EdTech Companies	Digital literacy and online education platforms	Smart classrooms, computer training centers
Pharmaceutical & Healthcare Companies	Free medicines, medical check-ups	100+ health camps per year
Retail & FMCG Companies	Food security programs and hygiene kits	Daily meals for 10,000+ beneficiaries

Benefits to Corporate Partners

✓ **Enhanced brand reputation through community engagement**
✓ **Tax exemptions under DONATION regulations**
✓ **Employee engagement through volunteer programs**
✓ **Partnership in global sustainability goals (SDGs)**

Corporate partnerships will provide **financial, infrastructural, and strategic resources** to scale the project.

11.3 NGOs and Community Stakeholders

Why NGO Collaboration is Important

NGOs have **local presence, field experience, and established trust** with communities. They act as **implementing partners**, ensuring **ground-level execution** of the project.

Types of NGOs and Their Roles in the Project

Partner NGO	Area of Focus	Contribution
Education NGOs	School enrollment and learning programs	Teacher recruitment, digital literacy
Healthcare NGOs	Preventive healthcare and medical aid	Organizing health check-ups, immunization drives
Women Empowerment NGOs	Entrepreneurship, microfinance, and legal aid	Skill-building, self-help group (SHG) formation
Homeless Rehabilitation NGOs	Social reintegration, housing solutions	Counseling, shelter management

Community Stakeholder Engagement

✓ **Village panchayats and local leaders** – Identifying and verifying beneficiaries

✓ **Women's self-help groups (SHGs)** – Running micro-enterprises for economic empowerment

✓ **Youth organizations and student groups** – Awareness campaigns and on-ground execution

Strong grassroots partnerships will **drive community ownership** and **enhance project credibility**.

11.4 Role of Volunteers and Donors

Why Volunteer and Donor Engagement is Critical

Volunteers and donors **bridge the gap between funding and implementation**. Their role is **multi-dimensional**, ranging from **providing services, organizing events, mobilizing resources, and spreading awareness**.

Types of Volunteers and Their Key Contributions

Volunteer Type	Key Responsibilities	Expected Impact
Medical Professionals	Conducting free health check-ups, awareness drives	Healthcare access for 50,000+ people
Teachers & Mentors	Teaching underprivileged children, vocational training	20,000+ students enrolled annually
Corporate Volunteers	Skill-based workshops, financial literacy training	Job placements for 5,000+ youth
Social Media Influencers	Online awareness campaigns, fundraising drives	Increased project visibility

Donor Engagement Strategies

✓ **Crowdfunding campaigns** for grassroots fundraising

✓ **Annual donor recognition events** to acknowledge contributions

✓ **Corporate donor programs** offering impact assessment reports

Projected Volunteer and Donor Impact (Year 1 - Year 5)

Category	Year 1	Year 2	Year 3	Year 4	Year 5
Registered Volunteers	1,000	3,000	6,000	10,000	15,000
Corporate Donors	10	25	50	75	100+
Total Funds Raised (₹ Cr.)	10	25	50	75	100+

A structured **volunteer management and donor engagement plan** will ensure **long-term sustainability**.

---

12. Legal and Compliance Information

Overview

Ensuring legal and regulatory compliance is crucial for the smooth execution and credibility of the **Aasra - Where Every Heart Finds a Safe Home** project. Adhering to national and international legal frameworks enhances **transparency, donor confidence, and operational legitimacy**.

This section outlines the **legal status, tax exemptions, financial transparency mechanisms, and DONATION funding compliance** for the NGO managing the project.

12.1 Legal Status of the NGO

The NGO is a legally registered entity operating under **Indian laws and governance frameworks.**

Key Registration Details

Parameter	Details
Legal Entity Type	**Registered NGO (Trust)**
Registration Number	**F-46786(MUM)**
Date of Incorporation	**13/04/2012**
Registered Under	Societies Registration Act, 1860 / Indian Trusts Act, 1882 / Companies Act, 2013
PAN (Permanent Account Number)	**AAMTS2831F**
Darpan ID (NGO Unique ID)	**MH/2025/0495546**
FCRA Registration (if applicable)	**N/A**

The organization is **fully compliant** with all legal requirements necessary for receiving and managing funds, both **domestic and foreign (if applicable).**

12.2 Tax Exemptions and Regulatory Compliance

NGOs in India benefit from **various tax exemptions** to encourage philanthropy and ease financial burdens. The NGO managing the project adheres to all **income tax regulations and statutory filings**.

Applicable Tax Exemptions

Tax Benefit	Relevant Section	Details
80G Exemption for Donors	Section 80G of the Income Tax Act	Donors receive a 50% tax deduction on donations made to the NGO
12A Registration	Section 12A of the Income Tax Act	Allows the NGO to claim tax exemption on income received
GST Compliance	Goods and Services Tax (GST)	GST-exempt for charitable activities but applicable on certain services
DONATION Tax Deductions	Companies Act, 2013 (Section 135)	Corporates contributing under DONATION receive tax benefits

All **necessary tax exemption certificates** are **updated and renewed** periodically to ensure compliance.

12.3 Audit and Financial Transparency Mechanisms

1. Internal and External Audits

The NGO follows **rigorous financial audit mechanisms** to ensure **accountability and transparency** in fund utilization.

Audit Type	Frequency	Conducted By
Internal Audit	Quarterly	Internal finance team
Statutory Audit	Annually	Certified Chartered Accountant
DONATION Grant Audit	As per donor requirement	Third-party auditor
FCRA Audit (if applicable)	Annually	Registered FCRA Auditor

2. Financial Reporting and Documentation

✓ **Annual Financial Reports** – Published for transparency
✓ **Donor Utilization Reports** – Shared with funding agencies
✓ **DONATION Compliance Reports** – As per corporate donor mandates

3. Fund Utilization Monitoring

✓ **Bank Reconciliation Statements** – Cross-verifying all transactions
✓ **Separate Bank Accounts for DONATION& FCRA Funds** – Compliance with RBI guidelines
✓ **Fund Disbursement Policy** – Approved by the board

Maintaining high standards of financial transparency enhances **trust among stakeholders, regulatory bodies, and donors**.

12.4 Compliance with DONATIONFunding Regulations

Corporate Social Responsibility (DONATION) funding is a key **financial resource** for large-scale social projects like **Aasra**. The NGO strictly adheres to DONATION **laws and regulations** under the **Companies Act, 2013 (Section 135).**

DONATIONCompliance Requirements and Adherence

DONATIONRequirement	Regulatory Clause	NGO Compliance
Eligibility for DONATION Funding	Companies Act, 2013	Registered under Section 12A & 80G
Utilization of DONATION Funds	Schedule VII	Funds allocated for shelter, education, healthcare
DONATION Implementation Partner Registration	MCA DONATION Portal	NGO is listed as an eligible DONATION partner
Annual DONATION Impact Reporting	DONATION Policy Rules	Reports submitted to corporate donors

Third-Party DONATION Compliance Audits

✓ **Donor-commissioned impact assessments**
✓ **Government audits (if mandated by the funding scheme)**
✓ **Independent review committees for fund utilization**

By maintaining **strict DONATION compliance**, the NGO ensures that **corporate donors remain confident** in funding the initiative, leading to **long-term partnerships and sustainability**.

13. Risk Management Strategy

Overview

The **Aasra - Where Every Heart Finds a Safe Home** project involves multiple stakeholders, financial dependencies, and operational complexities. To ensure its success, it is essential to **identify potential risks, implement mitigation plans, and establish contingency measures**.

This section highlights key **project risks, mitigation strategies, and contingency fund planning** to safeguard the project's long-term sustainability.

13.1 Potential Project Risks

The project may encounter risks in various domains, including **operational, financial, legal, environmental, and stakeholder-related** aspects.

Categorization of Risks and Their Impact

Risk Category	Potential Risk	Impact Level (Low/Medium/High)
Operational Risks	Delay in project implementation due to unforeseen circumstances	High
	Lack of skilled manpower for shelter operations	Medium
Financial Risks	Budget overruns due to inflation or unforeseen expenses	High
	Delay in fund disbursement from donors	Medium
Legal & Compliance Risks	Non-compliance with regulatory requirements	High
	Changes in NGO laws affecting funding	Medium
Environmental & Social Risks	Natural disasters affecting shelter homes	High
	Resistance from local communities	Medium
Stakeholder Risks	Lack of donor confidence and withdrawal of funding	High
	Low engagement from volunteers and local NGOs	Medium

Explanation of Identified Risks

1. **Operational Risks**:
    - **Delays in project implementation** can occur due to bureaucratic approvals, logistical issues, or unforeseen circumstances such as pandemics or supply chain disruptions.
    - **Manpower shortages** can affect the shelter's daily operations and impact the quality of services provided to beneficiaries.

2. **Financial Risks**:
    - **Budget overruns** due to rising material and labor costs can disrupt planned activities.
    - **Delay in donor fund disbursement** could affect ongoing operations and impact service delivery.
3. **Legal & Compliance Risks**:
    - **Failure to comply** with government regulations may result in fines or legal action.
    - **Changes in NGO laws** can affect funding eligibility and operational policies.
4. **Environmental & Social Risks**:
    - **Natural disasters** such as floods, earthquakes, or fires can damage infrastructure and disrupt operations.
    - **Resistance from local communities** may arise due to lack of awareness, cultural barriers, or misinformation about the project.
5. **Stakeholder Risks**:
    - **Loss of donor confidence** due to mismanagement or lack of transparency can lead to reduced funding.
    - **Low volunteer and community engagement** may hinder project effectiveness.

13.2 Mitigation Plans

A well-defined mitigation plan will help **reduce the likelihood and impact** of identified risks.

Risk Mitigation Strategies

Risk Category	Mitigation Strategy	Responsible Team
Operational Risks	Develop a detailed **project implementation roadmap** with clear timelines	Project Management Team
	Conduct **capacity-building workshops** for staff and volunteers	HR & Training Department
Financial Risks	Maintain a **buffer budget of 10%** for emergency expenses	Finance & Budgeting Team
	Establish **multiple funding sources (DONATION, grants, crowdfunding)**	Fundraising Team
Legal & Compliance Risks	Regularly review **compliance status** and update legal documents	Legal & Compliance Team
	Hire **legal consultants** for ongoing monitoring	NGO Board & Advisors
Environmental & Social Risks	Construct shelters in **low-risk areas** and ensure disaster preparedness	Infrastructure Team
	Engage with **local communities** to build awareness and support	Community Outreach Team
Stakeholder Risks	Provide **regular donor updates and impact reports** to build trust	Donor Relations Team
	Organize **volunteer engagement programs** to increase participation	Volunteer Coordination Team

Explanation of Mitigation Strategies

1. **Operational Mitigation:**
   - A **structured project roadmap** with well-defined milestones ensures timely execution.
   - **Training workshops** for staff and volunteers enhance efficiency in project operations.
2. **Financial Mitigation:**
   - Maintaining a **buffer budget** helps manage unplanned financial needs.
   - **Diversified funding sources** reduce dependency on a single donor.
3. **Legal & Compliance Mitigation:**
   - Regular audits ensure compliance with **tax laws and government regulations.**
   - Hiring **legal consultants** ensures that the project adheres to changing legal frameworks.
4. **Environmental & Social Mitigation:**
   - **Site selection based on risk assessment** helps avoid disaster-prone areas.
   - **Community engagement programs** build local support, reducing resistance.
5. **Stakeholder Mitigation:**
   - Regular **progress reports and impact assessments** build donor confidence.
   - **Volunteer-driven events** strengthen engagement with local communities.

13.3 Contingency Fund Planning

A contingency fund is crucial for handling **unexpected expenses, emergency situations, and financial risks.**

Contingency Fund Allocation (₹50 Crores Reserve)

Expense Category	Amount (₹ Crores)	Purpose
Emergency Shelter Repairs	10	Damage due to unforeseen disasters
Manpower Crisis Management	5	Hiring additional staff in case of shortages
Legal & Compliance Issues	5	Legal assistance and regulatory changes
Medical & Healthcare Emergencies	10	Unplanned medical support for beneficiaries
Financial Shortfalls	15	Buffer for delays in donor funding
Technology & Security Enhancements	5	Cybersecurity, data protection, and digital systems

Explanation of Contingency Fund Allocation

1. **Emergency Shelter Repairs (₹10 Crores):**
   - In the event of **fires, floods, or structural damage**, funds will be allocated for repairs.
   - Immediate **temporary housing solutions** will be arranged for affected beneficiaries.
2. **Manpower Crisis Management (₹5 Crores):**
   - If there is a **shortage of staff**, additional workers can be hired.

- Extra funds ensure the retention of trained staff during financial crises.

3. **Legal & Compliance Issues (₹5 Crores)**:
   - Unexpected **legal costs** due to regulatory changes or legal disputes will be covered.
   - Compliance with new **DONATION and tax laws** will be ensured through legal advisors.
4. **Medical & Healthcare Emergencies (₹10 Crores)**:
   - In case of **outbreaks, accidents, or mental health emergencies**, funds will be available for medical treatment.
   - Emergency **health insurance for beneficiaries** will be set up.
5. **Financial Shortfalls (₹15 Crores)**:
   - If donor funds are delayed, **salaries and operational costs** can still be met.
   - The project remains financially **resilient during economic downturns**.
6. **Technology & Security Enhancements (₹5 Crores)**:
   - Investments in **cybersecurity** to protect donor and beneficiary data.
   - Installation of **CCTV and alarm systems** to enhance shelter security.

14. Sustainability Plan

Overview

The long-term sustainability of the **Aasra - Where Every Heart Finds a Safe Home** project is essential for ensuring continuous support to vulnerable individuals. This plan outlines the strategies for **sustained operations, revenue generation models, and future expansion plans** to scale impact effectively.

14.1 Strategies for Long-term Sustainability

To ensure the project's longevity, the following sustainability strategies will be implemented:

Key Sustainability Strategies

Strategy	Description	Expected Impact
Community Participation	Engaging local communities, beneficiaries, and volunteers to take ownership of project operations.	Increased local involvement and reduced dependency on external funding.
Diversified Funding Sources	Raising funds through DONATION partnerships, government grants, crowdfunding, and self-generated revenue.	Financial stability and resilience against donor withdrawal.
Capacity Building & Training	Training beneficiaries in income-generating activities to promote self-reliance.	Long-term employment opportunities and economic empowerment.
Strategic Partnerships	Collaborating with government agencies, corporates, and NGOs for shared resources.	Strengthened operational capacity and access to additional funding.
Technology Integration	Implementing digital platforms for donations, volunteer coordination, and program monitoring.	Improved efficiency, transparency, and reach.
Sustainability Reserves	Creating a financial corpus fund to handle unforeseen circumstances.	Ensures uninterrupted services during financial downturns.

Explanation of Sustainability Strategies

1. **Community Participation**:
   - Encouraging **beneficiaries and volunteers** to contribute to shelter maintenance and operations.
   - Involving local community leaders in decision-making to foster a sense of ownership.
2. **Diversified Funding Sources**:
   - **Expanding donor base** through multiple channels like individual donors, corporate sponsorships, and social impact funds.
   - Applying for **government grants and international funding** to sustain services.

3. **Capacity Building & Training**:
    - Training shelter residents in **vocational skills (tailoring, handicrafts, digital skills)** to enhance their employability.
    - Establishing **micro-enterprises** within the shelter to generate internal revenue.
4. **Strategic Partnerships**:
    - Collaborating with **corporates for DONATION funding**, leveraging their expertise for infrastructure and skill development.
    - Forming alliances with **NGOs and government bodies** to optimize resource utilization.
5. **Technology Integration**:
    - Developing an **online donation portal** to facilitate easy contributions.
    - Implementing a **beneficiary tracking system** to monitor progress and enhance transparency.
6. **Sustainability Reserves**:
    - Establishing a **corpus fund** with an annual contribution from revenue to sustain the project.
    - Maintaining a reserve equivalent to **one year's operational expenses** as a financial buffer.

14.2 Revenue Generation Models

A diversified revenue model is crucial for ensuring financial independence and reducing reliance on donations.

Planned Revenue Streams

Revenue Source	Description	Projected Annual Income (₹ Crores)
DONATION Grants & Donations	Partnerships with corporates under DONATION initiatives.	30
Government Grants & Subsidies	State and central government support for social welfare programs.	15
Crowdfunding & Online Fundraising	Engaging individual donors through digital platforms.	10
Training & Skill Development Programs	Providing paid vocational training courses.	5
Micro-enterprises	Establishing small-scale businesses within the shelter (e.g., tailoring, handicrafts).	8
Rental Income & Event Hosting	Renting out shelter facilities for community events.	2
Endowment Fund	Interest from corpus funds invested in fixed deposits.	5

Total Estimated Annual Revenue: ₹75 Crores

Explanation of Revenue Streams

1. **DONATION Grants & Donations (₹30 Crores)**:

- Partnering with **corporate donors** to secure consistent funding for shelter operations.

2. **Government Grants & Subsidies (₹15 Crores):**
   - Availing **welfare grants** from central and state government schemes for social initiatives.
3. **Crowdfunding & Online Fundraising (₹10 Crores):**
   - Running online **donation campaigns** through platforms like Milaap, Ketto, and GiveIndia.
4. **Training & Skill Development Programs (₹5 Crores):**
   - Charging nominal fees for **vocational courses** offered to non-resident beneficiaries.
5. **Micro-enterprises (₹8 Crores):**
   - Establishing **in-house businesses** such as tailoring units, bakery, or handicrafts for sustained income.
6. **Rental Income & Event Hosting (₹2 Crores):**
   - Leasing out **conference halls and facilities** for community meetings and training programs.
7. **Endowment Fund (₹5 Crores):**
   - Investing a portion of funds into **fixed deposits and mutual funds** to generate **interest income**.

14.3 Future Expansion Plans

To extend its reach and impact, the project will gradually scale operations across multiple regions.

Expansion Roadmap

Phase	Timeline	Expansion Plan	Budget Estimate (₹ Crores)
Phase 1	2025-2027	Establishing 5 new shelters in urban areas	50
Phase 2	2028-2030	Expanding to 10 additional rural locations	75
Phase 3	2031-2035	Scaling up nationwide with 20 more shelters	150

Key Expansion Initiatives

1. **Phase 1 (2025-2027):**
   - Set up **five additional shelters** in metropolitan cities where homelessness is prevalent.
   - Strengthen **digital fundraising efforts** to support expansion.
2. **Phase 2 (2028-2030):**
   - Extend operations to **tier-2 and rural areas** where shelter homes are limited.
   - Introduce **mobile outreach programs** to cater to remote communities.
3. **Phase 3 (2031-2035):**
   - Establish **20+ additional shelters across the country**, focusing on high-need regions.
   - Secure long-term **government and institutional funding** for sustainability.

Projected Impact of Expansion

Indicator	Current (2025)	Projected (2035)	Growth (%)
Shelter Capacity	5,000 beneficiaries	50,000 beneficiaries	900%
Employment Created	1,200 jobs	12,000 jobs	900%
Vocational Training Graduates	2,000 annually	20,000 annually	900%

Conclusion

A structured **sustainability plan** ensures the long-term viability of the **Aasra Project**. By adopting **community participation, diversified funding sources, skill-building initiatives, and strategic partnerships**, the project will continue to impact lives beyond its initial scope.

The **revenue generation models** will provide financial independence, while the **future expansion strategy** will help scale operations across India, ensuring every homeless individual finds **a safe and supportive home**.

The next section will discuss **Monitoring & Evaluation**, focusing on impact measurement and project tracking mechanisms.

15. Conclusion and Call to Action

15.1 Summary of Key Points

The **Aasra - Where Every Heart Finds a Safe Home** project is a large-scale initiative aimed at providing comprehensive support for homeless individuals. This report has detailed the project's objectives, financial plan, implementation strategy, and sustainability framework. Below is a summary of key aspects of the project:

Key Takeaways of the Aasra Project

Component	Details	Expected Impact
Project Goal	Establish a nationwide network of shelters for the homeless.	Secure, stable, and self-sufficient lives for beneficiaries.
Target Beneficiaries	Homeless individuals, abandoned senior citizens, at-risk women, and persons with disabilities.	10,000 direct beneficiaries in Phase 1.
Core Services	Shelter, food, healthcare, vocational training, rehabilitation, and psychological support.	Holistic empowerment and reintegration into society.
Total Project Budget	₹350 Crores over five years.	Long-term financial sustainability and growth.
Funding Sources	Government grants, DONATION funding, philanthropic donations, and self-generated revenue.	Reduced dependency on external funding over time.
Sustainability Plan	Micro-enterprises, rental income, skill training fees, and government funding.	Self-sustained model after 5 years.

15.2 Appeal for Funding Support

To ensure the successful execution of the Aasra Project, we seek **financial contributions from corporates, philanthropists, government bodies, and individual donors**.

Why Your Support is Critical

- **Every ₹1 Crore** funds **housing, food, and rehabilitation for 200 individuals** annually.
- **DONATION contributions** enable **vocational training and job placements**, creating long-term self-reliance.
- **Institutional grants** help **scale the initiative to multiple states**.
- **Sustainability initiatives** will **reduce dependency on donations over time**.

Revised Funding Breakdown and Utilization

Expense Category	Phase 1 Budget (₹ Crores)	Phase 2 Budget (₹ Crores)	Total (₹ Crores)	% of Total Budget
Shelter Infrastructure (Construction & Renovation)	120	80	200	57.14%
Food, Healthcare & Rehabilitation Services	30	25	55	15.71%
Vocational Training & Employment Support	20	15	35	10.00%
Operational Costs (Staff, Maintenance, Utilities)	25	20	45	12.86%
Technology & Digital Fundraising Platforms	5	5	10	2.86%
Corpus Fund for Future Sustainability	5	-	5	1.43%
Expansion & Advocacy Initiatives	10	5	15	4.29%
Total Budget	**215**	**150**	**350**	**100%**

Funding Sources & Contribution Model

Source	Phase 1 (₹ Crores)	Phase 2 (₹ Crores)	Total Contribution (₹ Crores)	% of Total Budget
Corporate DONATION Contributions	90	60	150	42.86%
Government & Institutional Grants	70	50	120	34.29%
Philanthropic Donations & Crowdfunding	40	30	70	20.00%
Self-Generated Revenue (Micro-enterprises, Rent, Training Fees)	15	10	25	7.14%
Total	**215**	**150**	**350**	**100%**

Ways to Contribute

1. **Corporate Social Responsibility (DONATION) Contributions**
   - Companies can allocate **DONATION funds** towards shelter infrastructure and skill-building initiatives.
   - Branding and engagement opportunities for DONATION partners.
2. **Institutional & Government Grants**
   - Collaboration with **central and state government welfare schemes** to ensure long-term funding support.
3. **Philanthropic & Individual Contributions**
   - Direct donations via **crowdfunding platforms, legacy giving, and recurring sponsorships.**
4. **In-Kind Support & Volunteering**

- Donations of **food, medical supplies, educational materials, and household essentials.**
- **Volunteers and professionals** can contribute time to skill-building and mentorship.

Your support will help **transform thousands of lives** by creating safe, dignified, and sustainable living environments.

Final Call to Action

The **Aasra Project** represents a movement toward **eradicating homelessness, ensuring social inclusion, and providing vulnerable individuals with a dignified future.**

By supporting this initiative, you help build a **compassionate and sustainable society** where every individual has access to **shelter, opportunity, and hope.**
